## BAND TO BE PAID MONTH'S SALARIES

Saving Of \$490 In Pay  
Of The Police  
Department

There was little outside of the usual routine business transacted at the meeting of the Board of Supervisors last night though there was a full attendance. Moore made an unsuccessful protest against the payment of the salary demands of the band and showed how there was no money available for it but that which had been set apart for the use of the incoming board. The rest of the Board took the view that regardless of the finances of the new Board the band should be paid.

An attempt was made to hold up the band warrants by the chairman on the ground that one of the men, who had been elected by Bandmaster Berger on account of being sick for several days, should have received a full month's pay but this was defeated by Jack Lucas, who called attention to the fact that the band men needed the money as they had all come home broke and that if it was found that an injustice had been done it could be rectified at the next meeting.

The following salary bills were ordered paid:

Fixed salaries, \$1670.  
County Clerk, \$310.  
County Auditor, \$120.  
County Attorney, \$795.  
County Engineer, \$125.  
Keepers of parks, \$290.  
County Treasurer, \$120.  
Poundmaster, \$50.  
Kapiolani park, \$257.75.  
Garbage department, \$240.  
Fire Department, \$5663.84.  
Road Department, \$1937.49.  
Hawaiian band, \$1550.  
Electric Light Department, \$720.  
Police and fire alarm system, \$100.  
Koolau park road district, \$212.50.  
Koolau park road district (special) \$249.25.  
Police Department, \$7350.50.  
Waiolu road district, \$818.75.  
Ewa road district, \$1018.15.  
Waiolu road district, \$289.55.  
Koolau road district No. 1, \$54.15.

The first matter of business to come up was in connection with the salary of Road Overseer Ah Sing of Koolau No. 1. No appropriation was made for this district for the month of December but when the heavy rains came on the County Engineer authorized Ah Sing to go ahead and promised him \$3 per day. As the services of Ah Sing had never been formally dispensed with by written notice it was decided that he was entitled to his full salary of \$50 for the month.

When the police bill was presented attention was called to the fact that it was \$190 less than for the previous month and the chairman made a serious effort to find some fault in it. He was able to find that five men had left the department and it was explained that they had resigned, so the bill was passed though Moore voted in the negative as he stated that he did "not think that salaries should be cut at the eleventh hour. The police committee has had three months in which to do this and has refused to make any report."

The report of Road Supervisor Sam Johnson was read and ordered placed on file. This was published exclusively in the Bulletin last night. It showed the great amount of work which has been done on the roads under the outgoing administration.

A report from County Engineer Gere in answer to the letter and questions from Andrew Wright Crawford, vice president of the American Civic Federation was read. It showed that in the past eighteen months over \$30,000 had been spent on the Honolulu park system and that the Improvement Clubs of the city were growing rapidly in number and influence.

Supervisor Archer suggested that the County Engineer should be sent to look over the Nuuanu dam. He stated that there had been a lot of tinkering up there and there was no dam yet. He thought that on account of the danger in which the city was placed it would be only proper for the county to look into the matter and see that the work was done in a proper manner. Supervisor Lucas replied that it was foolish to think of trying to interfere with the Territory and that if Engineer Gere went up to the dam he would probably have a shoe put behind him and instructions given him as to the road home.

It was decided that the regular county employees should be paid off for the present month on Saturday, instead of Monday, to enable them to get ready for the New Year's celebration. Archer brought up an important point which was finally settled by a resolution introduced by Moore. Archer wanted to know if the officers appointed by the present board, who will hold office till January 7, would receive a full month's pay for only seven days. Moore's resolution was to the effect that the clerk should notify all the appointive officers that so far as the present Board of

## STOP, WOMAN!

AND CONSIDER  
THE ALL-  
IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private life to a woman—a woman whose experience with women's diseases covers a great many years.

Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, she has been advising sick women free of charge.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has drawn from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice. When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

Supervisors went, their terms would expire on January 7 at noon and their salaries would be paid up to that time.

A letter was received from Superintendent of Public Works Holloway thanking the Board of Supervisors for the turning over of the Kuni beach property which will be used as a public park. He did not send the \$1 consideration which was asked by the Board but suggested that they consider that it had been already received.

The next and last meeting of the Board will be held on Friday, January 4th.

## PROMOTION MEN DECIDE TO PURSUE JEHUS

The hold bad hackdrivers, who take advantage of the innocence of the tourists, by overcharging them shamefully, was the main subject dwelt on by the Promotion Committee at its meeting yesterday afternoon. Secretary Wood started the subject by telling about complaints which had been made to him by passengers on one of the transports. A hack driver had wanted to charge them \$1 apiece for the trip from one of the town hotels to the ship, but had finally accepted the regulation quarter. Wood said that in many instances the Jehus fleece the poor lambs which fall in their clutches, by charging them \$1 for the quarter trip. In no cases in which reports had been made to the secretary had the hack number been taken, and as a consequence it was impossible to take action.

J. F. Morgan suggested that some member of the committee see the hack inspector to have him attend to the carrying out of the hack regulations. Morgan said that there were good hack drivers as well as bad ones, and that the latter should be looked after.

It was decided to make an effort to have the regulation, which provides that all hacks must carry the rate schedule, be enforced, and to have this promotion literature which would be issued in the future, contain a notice to that effect, so that the tourists could protect themselves against overcharges.

## NO MORE DEADHEADS

No planes will be issued by the Oahu Railway and Land Co. after December 31. This order is in conformity with the provisions of the Interstate Commerce law which forbids the issuance of passes to points within a Territory or from one State to another. The railroad company still retains the right to say who shall ride free on their lines within a State's limits.

It remains to be seen whether passengers on the Rapid Transit will continue to enjoy that privilege in the future. The Inter-State Commerce Commission has been communicated with and the company's attorney consulted by Manager Ballentine regarding the matter.

Mr. Ballentine states that he considers the Rapid Transit in the light of an urban rather than interurban railway and it is of the opinion that the law will not set his company as regard the pass proposition.
